

TELECOMPARE

LETS YOU REALLY CALL CHEAP!

On our independent website you can objectively compare the rates of 19 telecom providers. Using their access numbers you can make national and international calls for very low rates.

Because the rates of each provider differ substantially each day, we collect them in a database that all the time will show actual rates. Using this information you can always select the cheapest rate for the country of your choice.

Now here is a selection of the cheapest rates for a few countries, compared on 8 February 2012:

Country:	Provider:	Access number:	Rate/min:	Country code:
